Subject: RE: ND Coyote Station source determination internal call

Hi Patrick,

Yes, please set up an internal meeting next week as you described. Let's hold off on setting up the ND meeting until we have the internal discussion. It seems like a pretty straightforward discussion so I don't think we'll need a briefing paper. It would be helpful if someone from HQ could go through the petition timing issues and I think it should be sufficient to attach a copy of our November 14th letter to the invite along with the most recent permit documents.

Thanks!
Gail

Subject: ND Coyote Station source determination internal call

Hi Gail,

You mentioned wanting to brief Monica and Carl on ND's source determination at Coyote Station (and response to comments for the TV permit renewal) in preparation for a call with ND. Should I schedule a time next week, maybe Tuesday or Wednesday, when our work group (me, DJ, Sara, Matt Spangler, Andrea Carillo, Dan Schramm) can have a call and include you, Monica, and Carl? Then perhaps the following week we could schedule a call for the same group to talk to ND?
